

SMART TRIM

3-IN-1 SYSTEM

GROWTH

PRODUCTIVITY

QUALITY

The Smart Trim system is a technological revolution in itself by setting a **NEW STANDARD FOR PROCESSING LUMBER TO ITS FINAL LENGTH**

BENEFITS

Unmatched flexibility to produce virtually any length

Multiple cuts for highest value

Smallest foot print

Lowest cost of operation

Virtually maintenance free

MAIN CHARACTERISTICS:

- Rotary tong loader principle of operation
- Electrically servo driven positioning
- Allen-Bradley plc controls
- Zero-line validation with scanner

TECHNICAL SPECIFICATIONS

FEATURE	VALUE
Trim Accuracy	0.030 in.
Displacement	Up to 12 in.
Speed	Up to 150 lug/min.
Trim Length	Virtually infinite
Precision End Trim	Yes
Multiple cuts	Up to 5
Footprint	10 ft
Communication	Ethernet

This 3-in-1 system uses the optimiser's solutions to index, position and trim lumber green or dry, rough or dressed, thus replacing a conventional lug loader, fence and trimmer.

SmartMill is a people-oriented company offering innovative lumber processing systems integrating robotics, vision and artificial intelligence.

SmartMill also provides continuous education for all its clients to improve managerial and operational knowledge and skills to all employees.
